

# Ring Around The Phonics

Teaches to left and right brain by engaging the body, brain and senses in the learning process (“Total Physical Response“).

## What Subjects Does It Teach?

- Especially good for **hands on learners, analytical personalities, children with ADHD, and children with various learning challenges.**

- **Reading**

Reading (14 early reader books included)

Comprehensive phonics

Blending to form words

- **Comprehension and Listening Skills**

Activity and question cards teach comprehension, listening and Communication skills

- **Foreign Language**

Basic Spanish

French, and any language that uses the English type alphabet

- **Spelling and Vocabulary**

- **Prefixes, suffixes, root words**

- **Language Arts to older children**

Note: Older children write their own cards

- **Teaches from 1 to 4 children at the same time**

Even if on different levels or even different subjects. (like the old room schoolhouse)...**saves you money and time.**

- **Can also be used to teach math, and other subjects.**

- **Puts the educator in control of what is being taught.** {example: it is important to teach children to pronounce phonic sounds correctly to avoid problems with blending them to form words...d is not du (we do not say du-a-du-y for daddy), b is not bu (we don't say bu-ee for bee), m is not mu, ext.}
